

International Symposium Introduction and Development of Research Data Services in Universities

A policy of immediate open access for research outcome including articles and evidence-based data is required in Japan recently. Each university is expected to promote the development of the infrastructure and support system for open access under the Open Access Acceleration Project. This symposium will provide an opportunity to discuss with practitioners providing research data services overseas. What kinds of supports are needed for open access and research data management at Japanese universities, and what information infrastructure, human resources, and organizational infrastructure are necessary to realize this will be discussed.

2024.10.11 **Fri**
13:00~17:00

Fee Free, application required
Deadline: 2024.10.9 (Wed)

Capacity In-person: 80, Online: 200

In-person: Inamori Hall, Ito campus, Kyushu University (Number 52 on the map below)

Online: Zoom

Simultaneous interpretation available

Symposium program

- 12:30 Registration Start
- 13:00-14:15
Introduction by Emi Ishida
(Professor of Data-Driven Innovation Initiative, Kyushu University)
"Developments in Research Data Services in Academic Libraries Over Time: My experiences at Purdue University, the University of Michigan, and the University at Buffalo" by Jacob R Carlson
(Associate University Librarian for Research, Collections and Outreach, the University at Buffalo)
- 14:25-15:45
"Development, Implementation, and Assessment of Research Data Management in Edinburgh University" by Robin Rice and Simon Smith
(Data Librarian and Head of Research Data Support Service / Research Data Support Officer, Library & University Collections, the University of Edinburgh)
"Challenges in Open Access and Research Data Services in Japan" by Hiroya Takeuchi
(University librarian and Vice president, Chiba University)
- "Challenges in Research Data Services in Kyushu University" by Yoichi Tomiura
(Director of Research Data Service, Kyushu University)
- 15:55-16:55
Panel discussion
- 17:10-18:00
Information exchange meeting (On-site)
