

Are these compounds totally new?!

Get the structural formula of the additives and drugs?

How SciFinder helps us anyway?

Patent... oops, how should we search it?

**SCIFINDER**<sup>®</sup>

A CAS SOLUTION

# Workshop for Effective Search in Chemical Information

- Get information on compounds or sequences.

(Organic & Inorganic Compounds, Polymer, Alloy, Metal Complex, Protein, Nucleic Acid, etc.)

- Search from structure formula, physical properties, references,

- Get information for related reactions or structural analogs.

- Search from chemical structure (ChemDraw is launched)

- Search from reactions and reaction routes

...and more!

Date		Location
June 22, THU	14:50 - 16:20	【Ito Campus】 Internet Salon, Ito Library 2F ※ Bring your laptop!
