

Are these compounds totally new?!

Get the structural formula of the additives and drugs?

How SciFinder helps us anyway?

Patent... oops, how should we search it?

SCIFINDER[®]
A CAS SOLUTION

Workshop for Effective Search in Chemical Information

- Get information on compounds or sequences.
(Organic & Inorganic Compounds, Polymer, Alloy, Metal Complex, Protein, Nucleic Acid, etc.)
 - Search from structure formula, physical properties, references,
- Get information for related reactions or structural analogs.
 - Search from chemical structure (ChemDraw is launched)
 - Search from reactions and reaction routes

...and more!

Date		Location
April 18, WED	14:00 - 15:30	【Hospital Campus】 Lecture Room 3, Faculty of Pharmaceutical Sciences 3F
April 19, THU	10:30 - 12:00	【Ito Campus】 Internet Salon, Ito Library 2F
