

Are these compounds totally new?!

Get the structural formula of the additives and drugs?

How SciFinder helps us anyway?

Patent... oops, how should we search it?

**SCIFINDER**<sup>®</sup>  
A CAS SOLUTION

# Workshop for Effective Search in Chemical Information

※ Bring your laptop!

- Get information on compounds or sequences.  
(Organic & Inorganic Compounds, Polymer, Alloy, Metal Complex, Protein, Nucleic Acid, etc.)
  - Search from structure formula, physical properties, references,
- Get information for related reactions or structural analogs.
  - Search from chemical structure (ChemDraw is launched)
  - Search from reactions and reaction routes

...and more!

Date		Location
May 15, WED	10:30 - 12:00	【Ito Campus】 Internet Salon, SciTech Library 2F

【Apply】  
Library HP > Events > Workshop for Chemical Information
