Academic Writing + Presentation Workshop

1. How to prepare oral and poster presentations (60 min.)

Potential presenters will learn best practices on how to write a conference abstract and create and present oral and poster presentations.

2. Understand common errors in academic writing (60 min.)

Second session includes how to avoid common errors by learning what to include and leave out in the introduction, methods, results and discussion sections.

3. How to manage references and citations (30 min.)

Last session is designed for beginners, using **EndNote Desktop**. For advanced levels, questions are accepted in person during this workshop. ※ Instructed in Japanese.
